Who we are

TOSKANIMED is the medical brand of the pharmaceutical laboratory **TOSKANI GLOBAL**, which, with more than 36 years of experience in the field of aesthetic medicine and present in more than 70 countries, specialises in medical and cosmetic products 100% designed for medical-aesthetic treatments.

MISSION

TOSKANIMED provides medical professionals with the necessary products to carry out the most effective, efficient and safe treatments. Our aim is to provide comprehensive and innovative skin care solutions for professionals in the field of aesthetic medicine.

WHAT MOTIVATES US

- + **Pharmaceutical quality** in the active ingredients of our products and total quality in all company processes.
- + **Innovation** in formulas designed and developed to achieve comprehensive solutions based on technologically advanced active ingredients (biomimetic peptides, liposomes, 3,000 kDa hyaluronic acid, etc.).
- + **Safety** in all our products, subjected to the most exhaustive controls so that their application is effective for the medical professional and safe for the patient.
- + **Efficacy** demonstrated in the results of the multiple clinical studies carried out that endorse our products.
- + **Respect** for medical professionals, patients and clients.
- + **Sustainability** and care for the environment.

“

To be market leaders, with innovative ingredients such as biomimetic peptides, liposomes and high purity pharmaceutical grade hyaluronic acid.”

regenerative
medicine solutions.
Combat hair loss,
strengthen follicles,
and stimulate growth.**

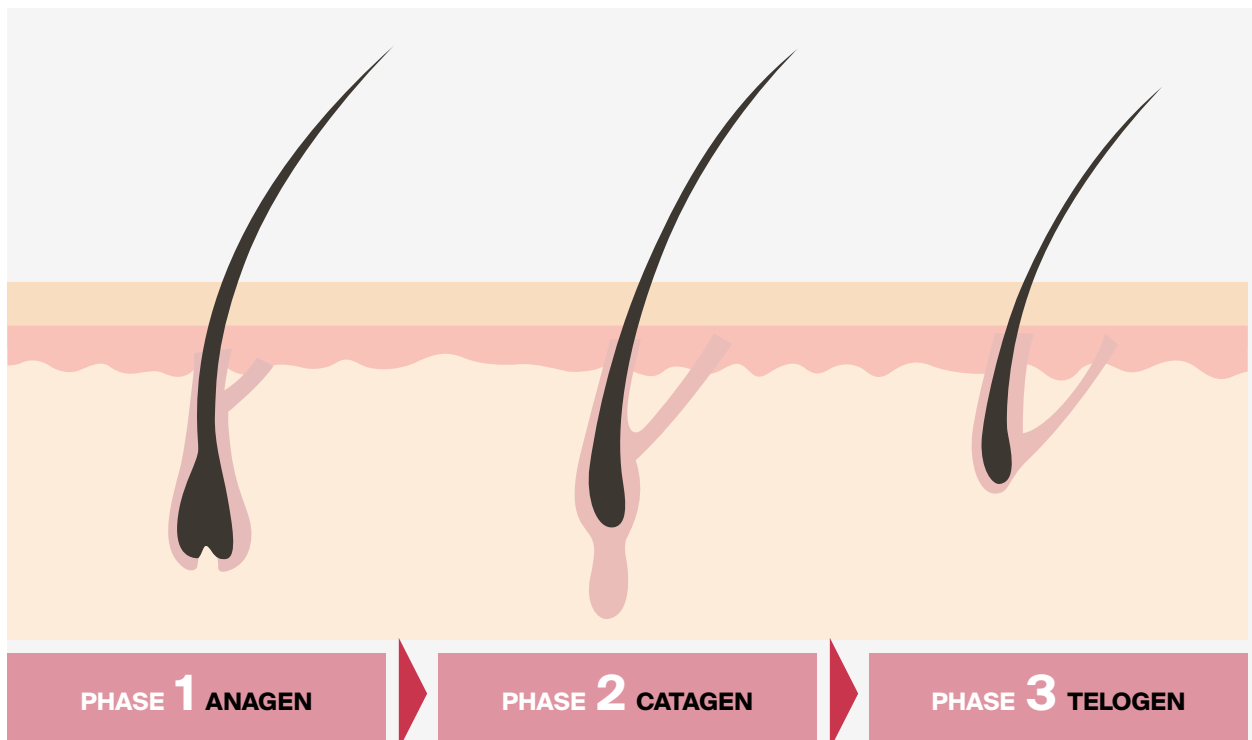

Hair loss treatment

Hair loss impacts both women and men, affecting their physical appearance, emotional well-being and self-esteem. Although it is a natural process, hair loss often has specific causes that can intensify hair loss.

Causes of hair loss

The hair cycle has 3 phases: growth (anagen), rest (catagen) and shedding (telogen), with anagen being the predominant phase under normal conditions.

Various factors can alter this balance by increasing the telogen phase or by reducing the diameter, length and pigmentation of the hair, leading to excessive hair loss.

Internal Causes

Genetics

Hormones

Inflammation

Stress and health

External Causes

Inadequate nutrition

Inadequate care

Environmental factors

Medication

Holistic regenerating and **anti-hair loss** treatment

TOSKANIMED acts on the multiple causes of hair loss following a strategic order to **improve scalp health, strengthen follicles, increase hair density** and **reduce hair loss**.

Medical Treatment

NeopenMed

Improves microcirculation, oxygenation and nutrition of the scalp.

Hair Cocktail Plus

Stops hair loss.

DensiHair Boost Complex

Increases density and hair shaft resistance.

Home Treatment

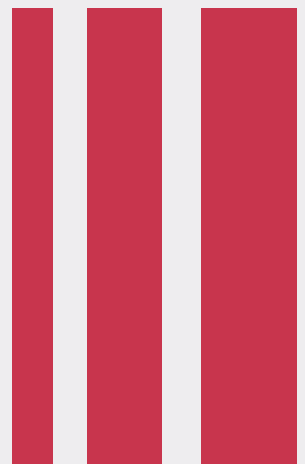

DensiHair Boost Capsules

Food supplement to combat hair loss.

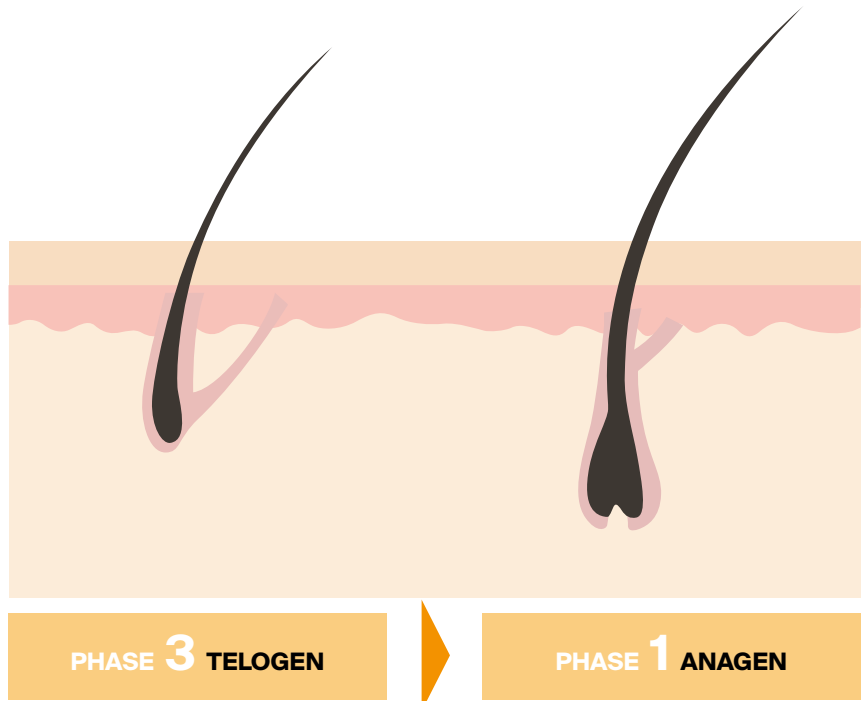

DensiHair Boost Lotion

Coadjuvant lotion to stop hair loss and promote growth.

Why choose this treatment?

- Visible results from the first sessions
- Painless treatment with no need for anesthesia
- High Natural Origin Index ingredients
- No side effects
- Compatible with previous hair treatments
- Adaptable to individual needs
- Compatible with hair surgery

GUIDELINE OF USE

- Non-injectable treatment
- Shock treatment of 10 sessions in clinic
 - In-clinic booster treatment: 1 quarterly session*
 - Booster treatment at home: daily use

* Maintenance should be agreed with your medical professional and adapted to the needs of each patient.

Holistic regenerating and anti-hair loss treatment

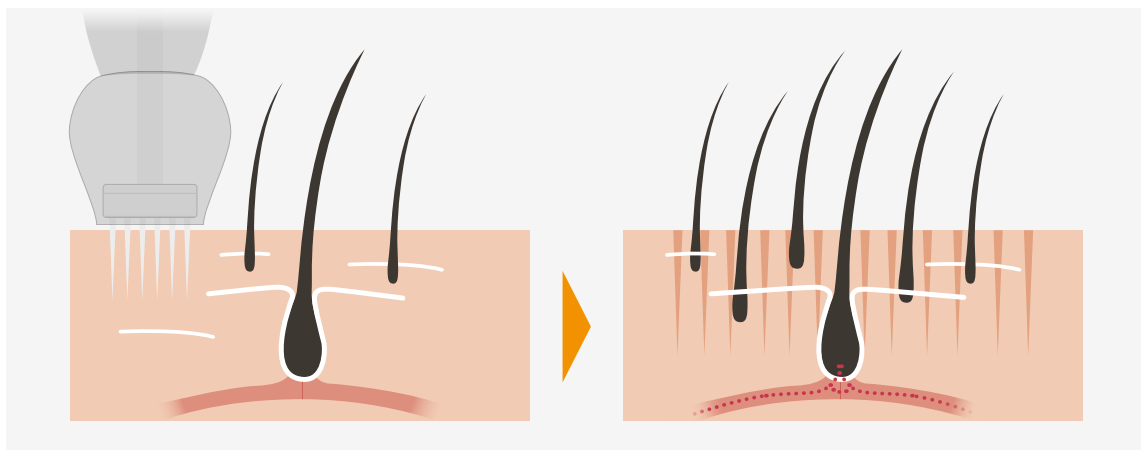

Medical treatment

neopenMED®

Medical device to improve microcirculation and **cellular regeneration** of the scalp by means of **microperforations** that favor the supply of **oxygen** and **nutrients** to the tissue and follicles.

- Promotes neocollagenesis and neoangiogenesis
- Enhances the results of hair treatments
- Maximizes their effectiveness
- Provides long-lasting effects against hair density loss

Anti-Hair Loss Meso Starter Kit

3 x **Hair Cocktail Plus** / 2 x **DensiHair Boost Complex**

Advanced and complete solution to **combat hair loss** and revitalize the scalp from the root. This innovative treatment, designed in **two phases**, combines the science of non-injected mesotherapy with a powerful selection of active ingredients that work in synergy to **stop hair loss, stimulate hair growth** and **strengthen existing follicles**.

TESTIMONIALS

Miguel (30 years old)

“ I began to worry intensely about my hair health, I had a lot of hair loss, very thin hair and the front and crown area were my biggest concern. It has been more than 1 year since I did my shock treatment and after the maintenance sessions my hair is still stronger, denser and with less hair loss. Without a doubt, highly recommended ”.

Estefanía (42 years old)

“ I had been experiencing a lot of hair loss for months, especially with the change of season, when it intensified even more. In addition, the frontal area, near the forehead and sides began to lose density and number of hairs. It's been more than a year since I did my treatment and I continue with quarterly maintenance, I am a different person since then ”.

Laura (54 years old)

“ Over the years my hair began to lose density, especially in some areas of the head. I had never had any sessions, and the truth is that I began to see results from the first sessions, and since then the evolution has been very positive. Currently I have had 7 sessions, and I am very happy with the results”.

José Carlos (50 years old)

“ It's been several years since I lost most of my hair due to androgenetic alopecia. It was then that I decided to shave my head, and it has been that way for a long time. After learning about this treatment, I decided to undergo effectiveness, and it helped me to recover areas that were totally depopulated. Currently I have decided to undergo a hair graft, which this treatment has also helped me to ensure greater effectiveness, and I am very happy. It is a treatment that is totally compatible with other hair treatments that I was already undergoing, and it is also painless, highly recommended ”.
