Intensive serum
for home care

New
LUMICEN
BOOST SERUM

**The ultimate
advanced cell
regenerator**

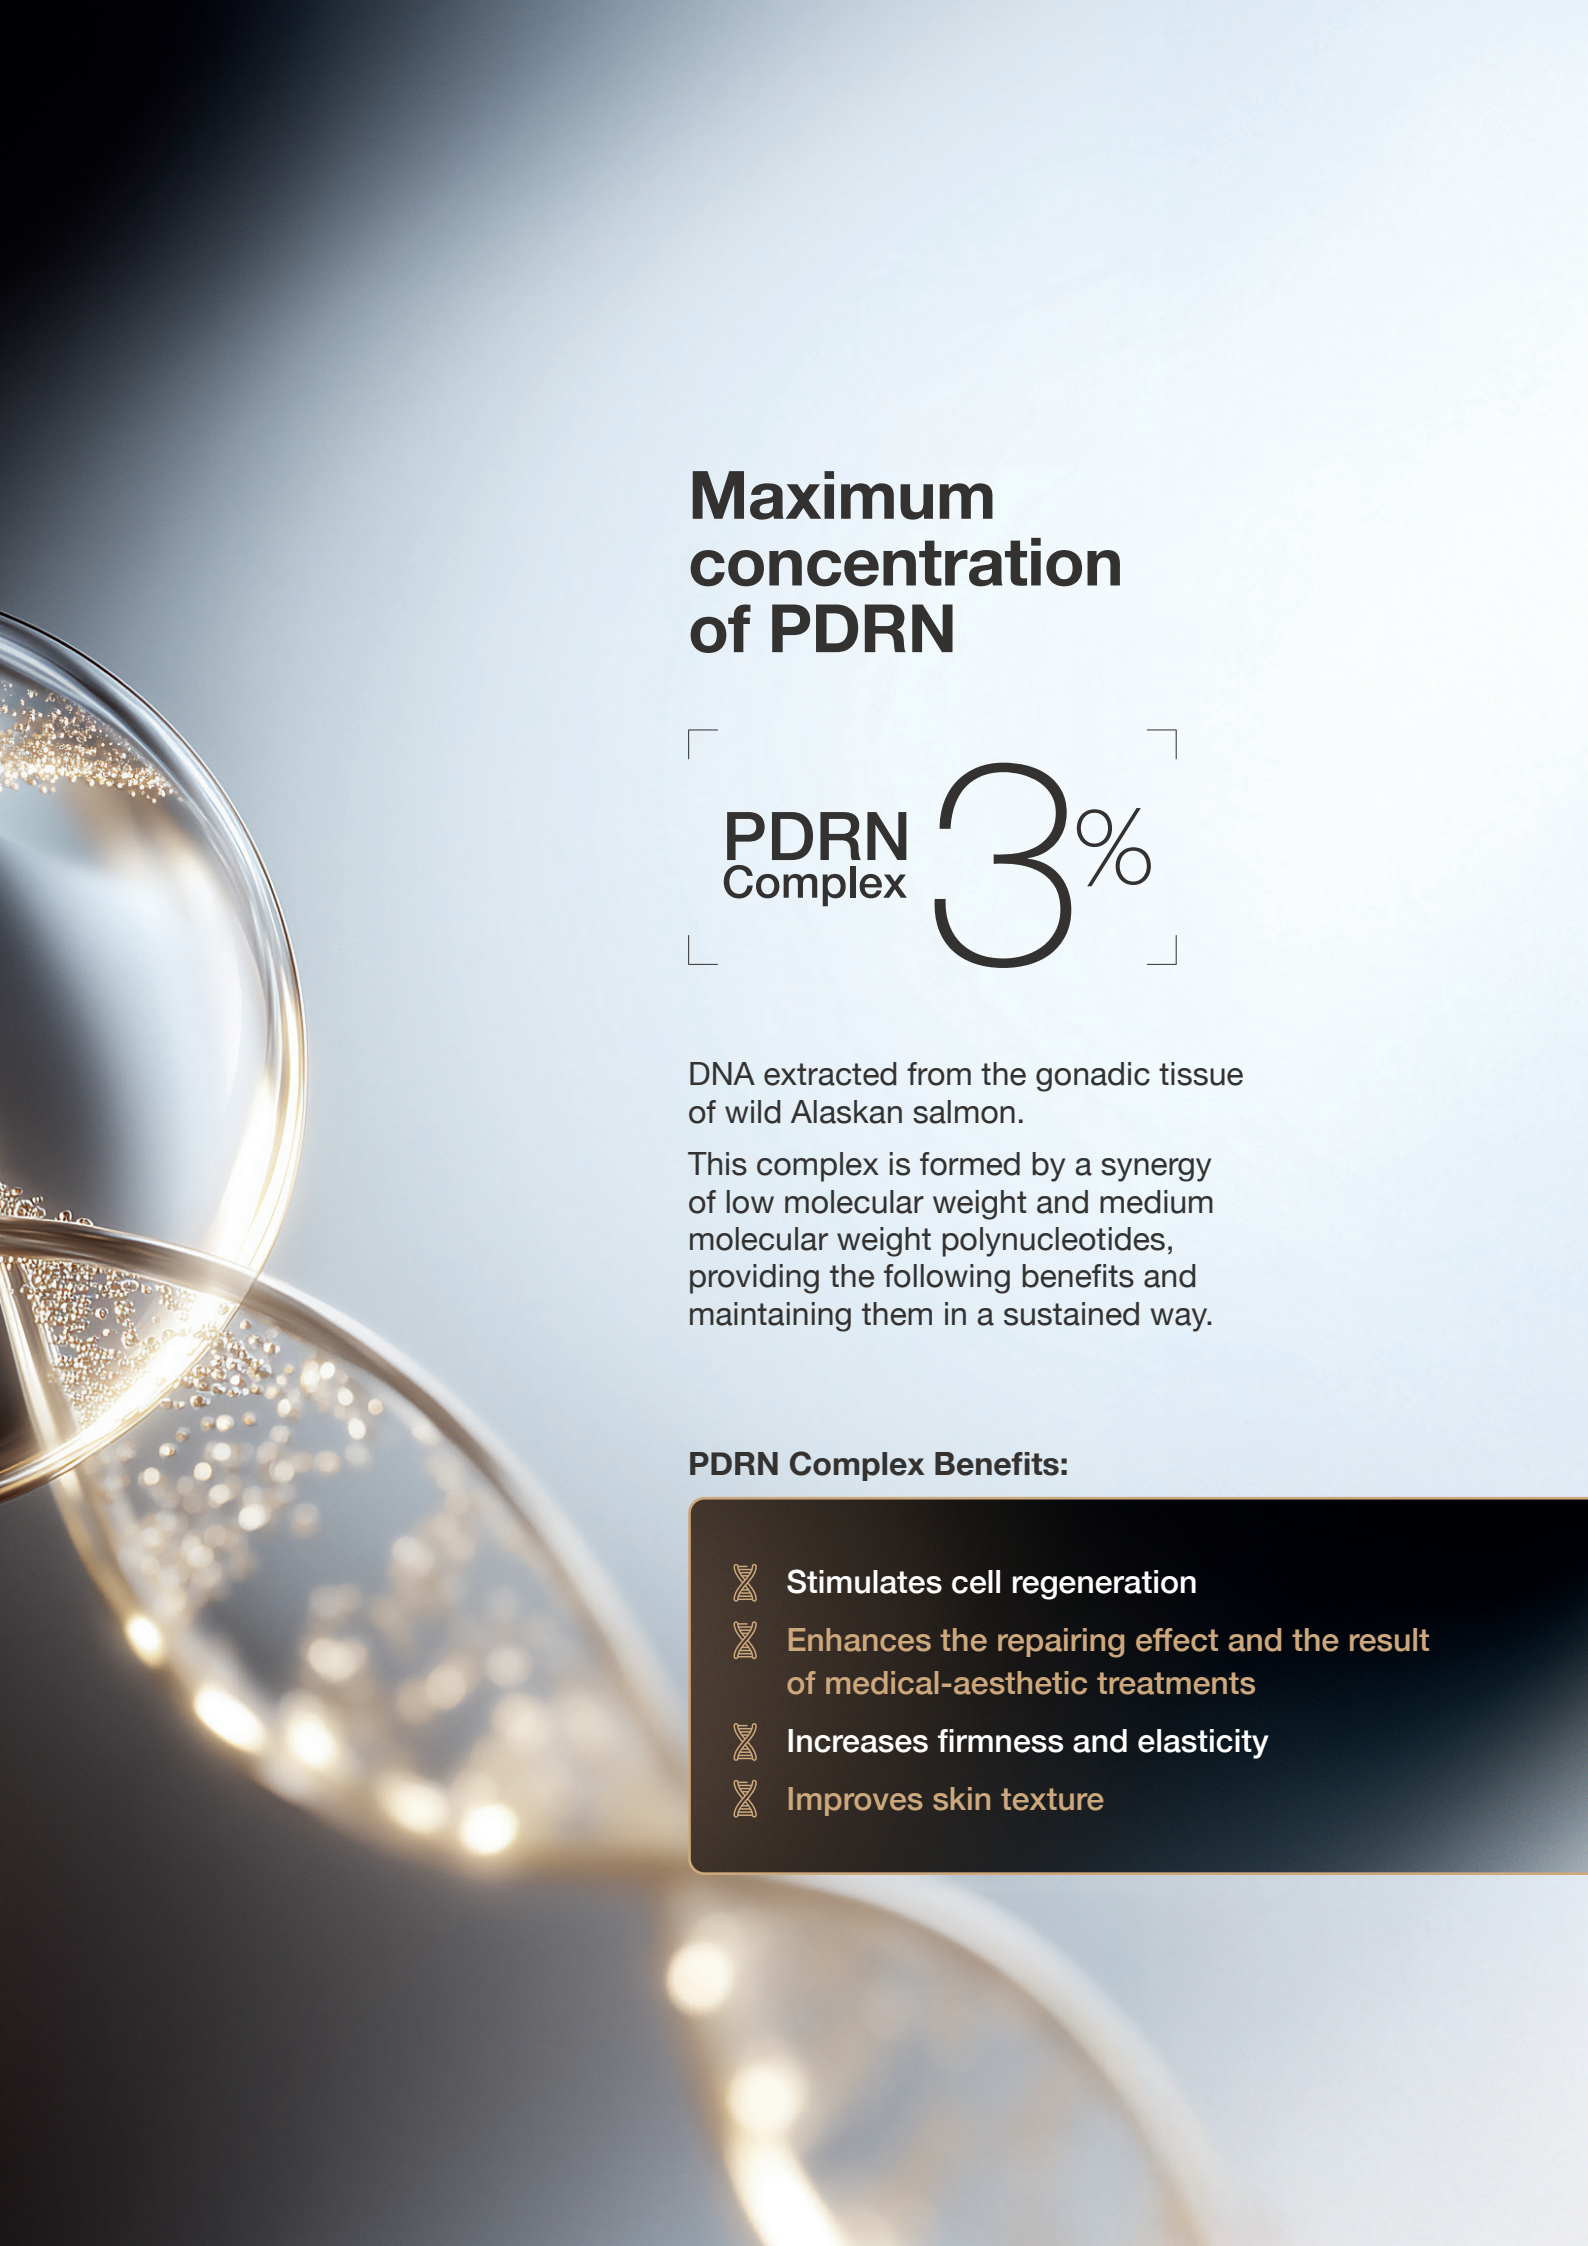

**Intensive serum
for home care**

Formulated to **enhance and prolong the results** of medical-aesthetic treatments performed in the clinic.

This advanced serum promotes **skin regeneration** and visibly improves skin texture, hydration and firmness.

Its repairing action contributes to **overall skin rejuvenation**, optimising the effectiveness of treatments.

Maximum concentration of PDRN

PDRN
Complex 3%

DNA extracted from the gonadic tissue
of wild Alaskan salmon.

This complex is formed by a synergy
of low molecular weight and medium
molecular weight polynucleotides,
providing the following benefits and
maintaining them in a sustained way.

PDRN Complex Benefits:

- ⌘ Stimulates cell regeneration
- ⌘ Enhances the repairing effect and the result
of medical-aesthetic treatments
- ⌘ Increases firmness and elasticity
- ⌘ Improves skin texture

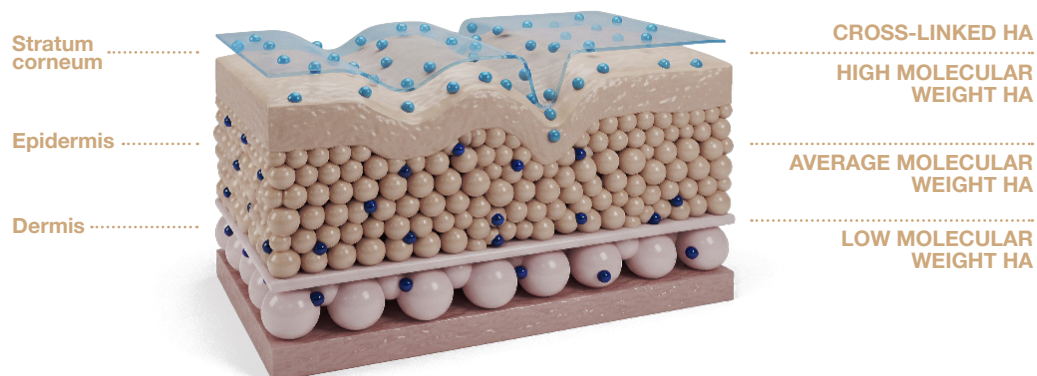

Hyaluronic Acid 4D

Combination of 4 types of hyaluronic acid: Cross-linked, high, medium and low molecular weight, they form a protective film that prevents transepidermal evaporation.

Maintains the skin barrier function: By preserving the hydration of the stratum corneum, the enzymes and lipids that form the skin barrier improve its functionalities.

Protects from external aggressions: An integrated skin barrier offers greater resistance to contaminants.

Immediate cosmetic effect: The skin looks smoother, firmer and with a healthy look.

Key benefits of LUMICEN Boost Serum

- ⌘ Advanced cell regeneration
- ⌘ Soothing and repairing effect
- ⌘ Improves skin texture
- ⌘ Improves elasticity and firmness
- ⌘ Deep hydration
- ⌘ Dermatologically tested on sensitive skin

New LUMICEN BOOST SERUM

✂ **Texture:**
Pearly and light.

✂ **Content:**
30 ml dropper.

✂ **Application:**
Apply two to three drops in the morning and night on clean skin.

Indications

- ✂ Skin undergoing medical-aesthetic treatments.
- ✂ Sensitive skin.
- ✂ Skin showing signs of ageing.

Post-treatment application

Approximate time frames depending on the type of treatment and skin sensitivity:

- ✂ **Injectable treatments, mesotherapy, botulinum toxin:** Apply Lumicen Boost Serum 24 hours after treatment
- ✂ **Gentle/superficial peels and gentle micro-needling:** Apply Lumicen Boost Serum 7 days after treatment.
- ✂ **Medium/deep peels and deep micro-needling:** Apply Lumicen Boost Serum 14 days after treatment.
- ✂ **IPL and RF with micro-needles:** Apply Lumicen Boost Serum 14-21 days after treatment.
- ✂ **Laser:** Apply Lumicen Boost Serum 21-28 days after treatment, depending on the aggressiveness of the treatment.
