

Key Benefits at a Glance

- Immediate results:** smoother, brighter, more even skin after the first session.
- Progressive improvement:** sustained renewal with each application.
- Safe for all skins:** even sensitive and high phototypes.
- No downtime:** minimal risk of redness, irritation, or peeling.
- All-year-round protocols:** effective in any season.

Professional Protocol

Step 1

Cleanse

Energizing Cleanser 200 ml
Purifying Cleanser 200 ml

Step 2

Tone & Balance

Bamboo Hydrotonic 200 ml

Step 3

Degrease

TKN Protector 10 ml
Degreasing Solution 100 ml

Step 4

First Application

Apply Duo-Somal Acid, leave for **5 minutes**, then rinse with water.

- Face: 1 capsule
- Face, neck, and décolleté: 2 capsules

Step 5

Second Application

Reapply or combine with another Duo-Somal Acid, leave **5 minutes**, then rinse with water.

Step 6

Deliver TKN Meso

Apply the selected **TKN Meso** solution according to professional assessment.

Step 7

Apply

Peel-off Mask 30 g
Pro Age Mask 30 ml

Step 8

Repair & Recover

Total Recovery Gel PRO 400 ml
Total Recovery Cream 50 ml

Step 9

Protect

Sun Shiel-D Fluid Facial Cream SPF50+ 50 ml

Proven Efficacy

+55%

IMPROVED SKIN FIRMNESS.

Objective results*

100%

of volunteers noticed a visible improvement in the overall appearance and radiance of the skin.

Subjective assessment**

* In vivo study of 5 sessions, applying 1ml of Salisome Duo, 1ml of Glycosome Duo, 5ml of Antiaging cocktail and 2.5ml of Firming cocktail in each session. Elasticity measurement with Cutometer® dual MPA 580. Study conducted by the Toskani Clinical Trials Unit, Barcelona.

** In vivo study of 5 sessions, combining Salisome Duo with Glycosome Duo/Lactisome Duo/Mandesome Duo. Study conducted by the Toskani Clinical Trials Unit, Barcelona.

No downtime
All skin types, all year long

DUO·SOMAL ACIDS

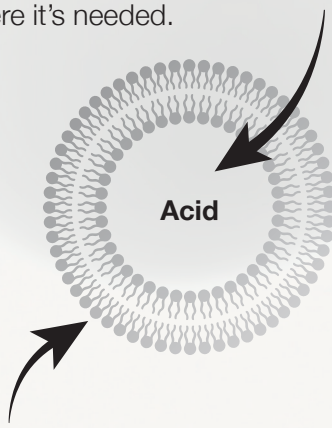

Powerful on results, safe for the skin

Duo-Somal Acids are next-generation cosmetic peels formulated with advanced **Duo-Somal Tech®**: a cutting-edge liposomal delivery system that encapsulates acids to achieve maximum efficacy with minimal irritation. This innovative technology combines free and liposomal acids, delivering dual-action benefits: immediate skin renewal and progressive, long-lasting results with excellent skin tolerance.

Suitable for all phototypes, skin types, and any season, Duo-Somal Acids provide transformative results from the very first session, without downtime, frost, or post-peel discomfort.

Encapsulated for safety

Acid is encapsulated inside the liposome, protecting the skin from irritation and enabling targeted, controlled release exactly where it's needed.

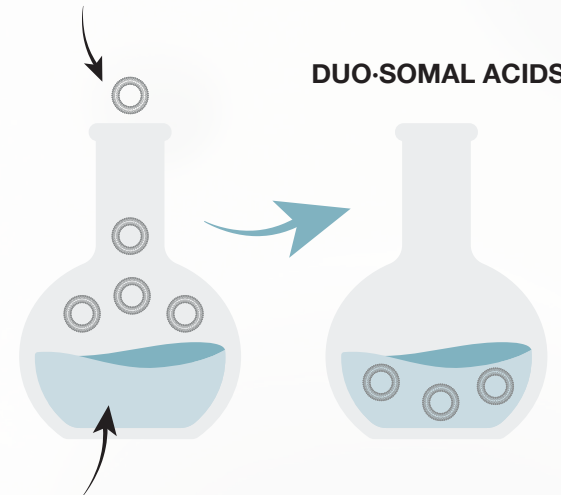

Biomimetic barrier support

The liposome's exterior, made of phospholipids, reinforces the skin barrier and promotes rapid regeneration.

LIPOSOMAL ACID

Liposomal acid promotes **renewal in the mid layer** of the epidermis

FREE ACID

Free acid promotes **gentle renewal in the superficial layer** of the skin

Science redefining skin renewal

What makes **Duo-Somal Acids** truly unique? It's all about precision and protection. Thanks to **Duo-Somal Tech®**, each drop is powered by a state-of-the-art liposomal delivery system that works smarter, not harsher.

At the core, the liposome holds the most concentrated form of the acid, encapsulated to minimize adverse effects and ensure a selective, gradual release at the optimal skin depth.

Surrounding it, the liposome's exterior, composed of phospholipids, regenerates the stratum corneum, strengthens the skin barrier, and promotes rapid regeneration.

SALISOME DUO

Oily and acne-prone skin

Powered by **Duo-Somal Tech®** for targeted delivery, enhanced efficacy, and superior skin tolerance. This **specialised** peel for oily and acne-prone skin deeply cleanses pores, reduces breakouts, and improves post-inflammatory marks.

Key Benefits

- Controls excess sebum
- Deep-cleans pores
- Reduces breakouts
- Reduces post-inflammatory hyperpigmentation
- Anti-inflammatory and antibacterial

Key Ingredients

Salicylic Acid (Free + Liposomal)

Beta-hydroxy acid with keratolytic and comedolytic properties, anti-inflammatory action, and the ability to target blemishes while preventing irritation.

Content

10 boxes × 5 single-dose pearls of 1 ml

SALISOME DUO + **SALISOME DUO**

-45% LESS SEBUM PRODUCTION*

GLYCOSOME DUO

Mature skin with wrinkles and dark spots

Powered by **Duo-Somal Tech®** for targeted delivery, enhanced efficacy, and superior skin tolerance. This **light-textured** peel accelerates cell renewal and refines skin texture for a radiant, even complexion.

Key Benefits

- Accelerates cell turnover
- Improves skin texture and radiance
- Minimises pores
- Fades marks and fine lines
- Enhances hydration

Key Ingredients

Glycolic Acid (Free + Liposomal)

Alpha-hydroxy acid with high dermal penetration. Stimulates cell renewal, smooths skin, and boosts radiance while maintaining optimal hydration.

Content

10 boxes × 5 single-dose pearls of 1 ml

SALISOME DUO + **GLYCOSOME DUO**

-40% FEWER WRINKLES*

LACTISOME DUO

Sensitive skin with photoageing

Powered by **Duo-Somal Tech®** for targeted delivery, enhanced efficacy, and superior skin tolerance. This **gentle yet powerful** peel firms, hydrates, and evens skin tone while reducing redness.

Key Benefits

- Firms and hydrates
- Evens skin tone
- Reduces redness
- Smooths fine lines
- Boosts skin comfort and barrier function

Key Ingredients

Lactic Acid (Free + Liposomal)

Alpha-hydroxy acid that stimulates collagen and elastin synthesis, evens skin tone, and promotes long-lasting hydration.

Content

10 boxes × 5 single-dose pearls of 1 ml

SALISOME DUO + **LACTISOME DUO**

+40% IMPROVEMENT IN SKIN QUALITY*

MANDESOME DUO

Skin with hyperpigmentation

Powered by **Duo-Somal Tech®** for targeted delivery, enhanced efficacy, and superior skin tolerance. This **gentle exfoliating** peel corrects uneven pigmentation and boosts luminosity.

Key Benefits

- Treats uneven pigmentation
- Provides gentle exfoliation
- Improves skin texture and luminosity
- Hydrates and softens
- Suitable for high phototypes

Key Ingredients

Mandelic Acid (Free + Liposomal)

Alpha-hydroxy acid that promotes cell renewal, brightens the complexion, and delivers high moisturising capacity without irritation.

Content

10 boxes × 5 single-dose pearls of 1 ml

SALISOME DUO + **MANDESOME DUO**

-50% REDUCTION IN DARK SPOT INTENSITY*
