

ANTI-HAIR LOSS TREATMENT

About us

TOSKANIMED is the medical brand of the TOSKANI pharmaceutical laboratory which, with over 36 years of experience in the field of aesthetic medicine and present in more than 70 countries, is specialised in medical and cosmetic products that are 100% designed for medical-aesthetic treatments.

Mission

TOSKANIMED provides medical professionals with the necessary products to perform the most effective, efficient and safe treatments.

Our goal is to provide comprehensive and innovative solutions for skin care to professionals in the field of aesthetic medicine.

What motivates us

- + **Pharmaceutical quality** in the active ingredients of our products and total quality in all the company's processes.
 - + **Innovation** in formulas designed and developed to achieve comprehensive solutions based on advanced technology active principles (biomimetic peptides, liposomes, 3,000 kDa hyaluronic acid, and so on).
 - + **Safety.** All our products are subjected to the most exhaustive controls so that their application is effective for the medical professional and safe for the patient.
 - + **Effectiveness.** The results of clinical studies conducted over the years support our products.
 - + **Above all, respect** for professionals in the medical channel, patients and clients.
 - + **Sustainability** and care of the environment.
-

ANTI-HAIR LOSS TREATMENT

- 🔥 **TOSKANIMED** offers its expertise in treating **all types of alopecia** with a complete range of **medical-use** and **home-use** products.
- 🔥 The aim of the treatment is to **stop and prevent hair loss, boost its growth and increase density**.
- 🔥 Clinical studies guarantee **results** from the first sessions.

The range is formulated with innovative ingredients and aims to:

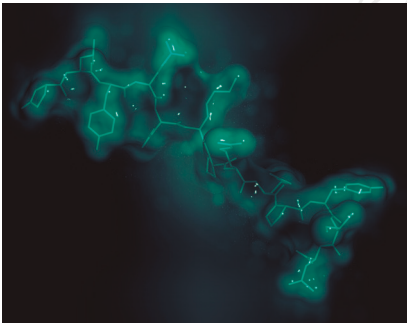

Slow down hair loss

Stimulate new hair growth

Redensify with nourishing ingredients

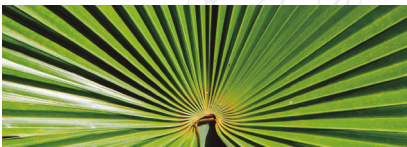

Reduce oxidative agents in the scalp

MAIN INGREDIENTS

Biomimetic peptides

- 🔥 Mimic natural growth factors, thus stimulating dormant hair follicles to produce new hair.
- + **bFGF**: boosts blood microcirculation in the scalp and revitalises hair follicles.
- + **IGF-1**: strengthens the hair and stimulates hair follicles to produce a strong hair shaft.
- + **VEGF**: helps nutrients reach the follicle of the miniaturised hair by stimulating angiogenesis.

Sabal serrulata

- 🔥 The extract from the berries of the Sabal serrulata is rich in fatty acids, phytosterols and flavonoids.
- 🔥 Inhibits the action of 5- α -reductase thus decreasing the rate of dihydrotestosterone in the blood and its slowing action on the hair cycle¹.
- 🔥 Activates oestrogen receptors, prolonging the anagen phase and normalising the catagen phase^{2,3}.

Aminexil

- 🔥 Prevents premature hair ageing and improves hair collagen structure.
- 🔥 Promotes blood flow to the hair follicle for strong and vigorous hair growth⁴.
- 🔥 Prolongs the anagen phase.

Troxerutin

- 🔥 Bioflavonoid capable of improving vascular permeability.
- 🔥 Increases microcirculation in the hair follicle area.
- 🔥 Improves the thickness of miniaturised hair⁵.

OTHER INGREDIENTS

- 🔥 B Vitamins
- 🔥 Sodium
- 🔥 Magnesium
- 🔥 Potassium
- 🔥 Selenium
- 🔥 Zinc
- 🔥 Glutathione

COMPLETE TREATMENT

Medical products

ANTI-HAIR LOSS MESO STARTER KIT

3 x 10 ml
(0.34 fl oz)

1 HAIR COCKTAIL PLUS

Used in the **first sessions** of the treatment to stop hair loss.

Slow down hair loss

Sabal serrulata

Nourishing ingredients

Troloxerutin, Biotin, Pyridoxine, Panthenol, Taurine, Iron

Antioxidant and microcirculation ingredients

Glutathione

2 x 5 ml
(0.17 fl oz)

2 HCPR Hair Complex Poli Revitalizing

Once hair loss has stopped, the aim is to **strengthen the hair and increase its density**.

Stimulate growth

Biomimetic peptides

Nourishing ingredients

Minerals (Sodium, Magnesium, Potassium), B Vitamins, Co-enzymes and Amino acids

Antioxidant ingredients

Glutathione

Medical treatment application protocol

Product	Vials	Dosage per session	Weekly sessions									
			1	2	3	4	5	6	7	8	9	10
Hair Cocktail Plus	6	10ml	■	■	■	■	■	■				
HCPR	4	5ml							■	■	■	■

(2 Meso Starter Kits are required)

MEDICAL PRODUCT APPLICATION TECHNIQUE

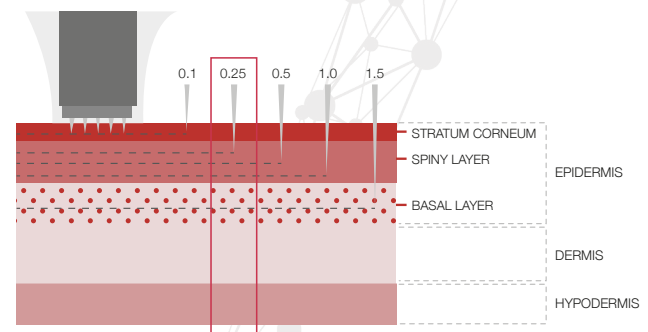

Microneedling

Application of the **microneedling** technique with **neopenMED®**

✦ The **microneedling technique** is a minimally invasive method that creates **channels in the superficial layers** of the skin to facilitate the **absorption of active ingredients**.

✦ It also promotes **new collagen formation, neovascularisation** and the **release of growth factors**, which are beneficial to the scalp and healthy hair follicles^{6,7,8}.

0.25 mm recommended depth for mesosynergy®.

COMPLETE TREATMENT

Home-use products

DENSIHAIR BOOST CAPSULES

Strengthens the hair and stops hair loss. Designed as an **adjuvant** treatment to the **medical** hair-loss **treatment**.

Slow down hair loss

Sabal serrulata

Stimulate growth

Zinc, Selenium

Nourishing ingredients

Biotin, Lysine, Cystine, Arginine

ANTI-HAIR LOSS LOTION

Unique and innovative solution to **slow down hair loss** and **strengthen** new and existing hair. Thanks to its combination of ingredients such as *Sabal serrulata* and Aminexil, **the results of the medical treatment are enhanced**.

Slow down hair loss

Sabal serrulata, Aminexil

Stimulate growth

Zinc

Nourishing ingredients

Nicotinamide, Biotin, Pyridoxine

Ingredient	Amount (mg/cap)
